ABUBAKAR SHAIKH

AI & DATA SCIENCE | MACHINE LEARNING | AI AUTOMATION

Email: bakarshaikh987@gmail.com | LinkedIn: linkedin.com/in/abubakar-shaikh-ds

PROFESSIONAL SUMMARY

Aspiring AI and Data Science professional with a practical, project-based focus on Python, machine learning, data analysis, and intelligent automation. Builds hands-on applications including prediction systems, face recognition and attendance workflows, and lead-management automation. Interested in developing practical AI solutions and continuing to grow through project work and applied learning.

TECHNICAL SKILLS

Programming: Python, SQL
AI & Data Science: Artificial Intelligence, Machine Learning, Data Science
Libraries: Pandas, NumPy, Scikit-learn
Web & Automation: Flask, AI Automation
Tools: Git, GitHub

SELECTED PROJECTS

Mind Predict AI

AI-focused prediction project.

AI Face Recognition & Attendance System

Project combining face recognition, emotion detection, and attendance management.

AI Lead Management & Automation

Automation-focused project for lead management and follow-up workflows.

AI Document Assistant

AI document-assistance project.

House Price Prediction

Machine learning project focused on predicting house prices.

Customer Segmentation

Data science project focused on grouping customers into segments.

CERTIFICATIONS

Artificial Intelligence and Data Science — Saylani Mass Training Programme (SMIT), 2026
Advanced Python Programming & Applications — NAVTTC, 2026

EDUCATION

Intermediate — Pre-Medical

Project descriptions are concise summaries based on the information provided. Add verified project links, education institution/year, or measurable outcomes when available.
